FIND FULL TEXT FUNCTION IN ENDNOTE

EndNote can find the full text of an article for you. To enable this feature, select Edit then Preferences. Select Find Full Text then ensure the details display as below:
OpenURL Path: http://goo.gl/N7GeuJ

If you are using your own personal copy of EndNote off-campus (i.e. NOT through RAS), you will also need to include the following URL:
Authenticate with URL: http://libproxy.ncl.ac.uk

To run this feature select one or more references in your library and click on the Find Full Text icon:

The full text PDF of the article will be attached to your reference (if it’s available within our subscriptions).
