EXPORTING BOOK AND EBOOK REFERENCES FROM LIBRARY SEARCH

1. Log into EndNote web on your Internet browser.

2. In another tab in the same browser go to Library Search and find the reference you wish to export, e.g. Essay Writing

3. Click on the title.

4. At the bottom of the page you should see some ‘Send to’ options. Click on ‘EndNote web’
You should then see the following message in your EndNote web browser:

**Primo Import Results**

Number of records imported: 1

The reference will be shown in the 'unfiled' folder under My References in EndNote online. You can add the reference to a group if you wish. (See online workbook on our EndNote library guide for more information on creating groups).

⚠️ When exporting from Library Search please check in your EndNote online library that the ‘author’ and ‘reference type’ fields are correct.
